Maginifying Microscope Talk

Episode 31

In the latest episode of Endo Voices we get precise and zoom in on one of the most innovative technologies within endodontics and dentistry: The microscope.

Picture on the right:

Reliable, Reproducible, Results!

A Patient's endodontic journey never ceases to amaze me. Inadvertent recall from 2016 when tooth #18(37) was treated for distal decay and subsequent irreversible Pulpitis.

After completion of #18 retxt #19 (36) was recommended. The patient postponed treatment because the tooth was not hurting. 2021 was the year tooth #19 became symptomatic. So here we are looking to save another tooth!

Lift As We Climb

Marcus Johnson, DDS '08
President, New York State Association of Endodontists
Private Practice, Endodontics

Dr. Johnson was featured in the NYU Dental Student-Life and Leadership video. Watch as he talks about his experience in NYU and his journey in becoming a true leader.

“ My motto that has guided me along my journey of life, more specifically steered my challenges and triumphs of dentistry as I strive for excellence without excuses and inspire others along the way to achieve their goals, reach for new heights and impact change. I am very honored to have been featured in this motivational piece so beautifully woven together by NYU Dentistry. At NYU you are accepted and you belong.”
