

CITY ENDODONTICS NEWSLETTER

Dr. Johnson on the set of the *EndoVoices* Podcast with Dr. Bruno Azevedo DDS, MS discussing Diagnosis and 3D Imaging in Endodontics. Dr. Azevedo is Professor of Oral Radiology at the University of Louisville School of Dentistry.

Dr. Azevedo will be presenting a CBCT course: *The Art of 3D Imaging Interpretation in Endodontics* (NYC June 5th & 6th) sponsored by the New York State Association of Endodontists. More info to come.

Welcome Our Newest Associate!

City Endodontics is pleased to welcome our newest associate, **Dr. Michael Y. Chen!** Dr. Chen graduated from Harvard School of Dental Medicine, and completed the Columbia University Graduate Endodontics Program. Dr. Chen has a passion for excellence in Endodontics and delivering high quality care to patients. In addition, he brings extensive research and leadership experience.

Farewell to Summer

Autumn sights and sounds remind us of cooler temperatures, smells of leaves, & of course the excitement for the start of a season anticipating abundance and robust harvest. With chic fall fashions comes busy schedules packed with kids, school, meetings and adjusting to a more rigid schedule. Nonetheless everyday has beauty pictured all over it and we just have to adjust our frame to see it! Wishing all our friends and colleagues an amazing start to Fall. Thank you for entrusting us with your endodontic concerns and know we are happy to help manage any of your dental emergencies in a timely fashion. We look forward to upholding the principle of "Excellence in Endodontics!"

Reliable, Reproducible, Results!

First off, this patient was 6'7". Not sure of any studies correlating height and root length but this would be evidence to support a relationship!

Cracked tooth (#14) turned pulpal necrosis w/acute apical abscess. Two visits & 30mm later (palatal) case is asymptomatic. Crown recommended. This is my version of a pitchfork case!

Case Courtesy Dr. Johnson
